**SMART POWER MANAGEMENT****S-EL06-10.01SEM**

This seminar is an overview of smart power management diagnostics. The following topics are covered cranking systems, including electronic control module-controlled cranking systems and hybrid cranking systems, charging systems, including electronic control module-controlled charging system performance, charging system control and diagnosis, and hybrid charging systems, and three real-world case studies on the Chevrolet Malibu, GMC Yukon Hybrid, and Ford F-150 provide technicians with exposure to real-world customer cranking and charging concerns. GM Service Information and Mitchell Repair Information are referenced for on-the-job diagnostic procedures.
